Project Description

The developer worked on the Cactus Leather London website, an online leather goods store offering real leather bags, wallets, belts, jackets, rucksacks, sling bags, messenger bags, tobacco pouches and handcrafted accessories. The work focused on creating a premium digital shopping experience that reflects Moroccan craftsmanship, London heritage, luxury leather styling and practical ecommerce use.

Scope of Work Completed / Provided

1. Wix Website Design

- Designed and structured the website layout on Wix.
- Created a premium dark luxury leather brand style.
- Applied brand colors, fonts, spacing, sections and visual hierarchy.
- Designed homepage sections including hero, shop by category, best sellers and our story.
- Created and supported category page visuals and banners.
- Improved the overall user experience and visual presentation.

2. Responsive Design

- Adjusted desktop layouts.
- Adjusted mobile layouts.
- Improved section responsiveness across different screen sizes.
- Checked spacing, image positioning and navigation behavior for mobile and desktop views.

3. Ecommerce Store Setup

- Helped organize product categories and store structure.
- Supported setup of product collections and category pages.
- Assisted with product presentation and product page structure.
- Worked on category descriptions, header descriptions and footer descriptions.
- Supported product image improvement and product visual consistency.

4. SEO Setup

- Added and advised SEO focus keywords.
- Wrote SEO title tags and meta descriptions.
- Improved heading structure including H1, H2 and H3 hierarchy.
- Added and advised image alt text.
- Helped optimize page descriptions for search engines.

**5. Payment Setup Support**

- Assisted with payment setup configuration on Wix.
- Helped prepare the website for accepting online payments.
- Checked store settings related to the checkout flow where applicable.

6. Shipping Setup Support

- Assisted with shipping setup configuration.
- Helped organize shipping-related store settings.
- Supported setup needed for product delivery and customer checkout.

7. Domain Setup Support

- Assisted with domain-related setup for cactusleatherlondon.com.
- Supported website connection and configuration steps related to the domain.

8. Content and Branding Support

- Wrote and improved website text.
- Created brand-consistent section copy.
- Wrote Our Story, category descriptions, SEO descriptions and store content.
- Supported brand positioning around Moroccan craftsmanship, London heritage and premium leather goods.

9. Image and Visual Asset Support

- Created and enhanced product and category visuals.
- Designed dark luxury leather-style banners.
- Supported consistent imagery for categories such as all products, bags, wallets, belts, jackets, accessories, rucksacks, sling bags, messenger bags and tobacco pouches.

Client Acknowledgement

By signing this document, the client confirms that Yahya Elgzouli, acting as Software Engineer / Fullstack Developer, worked on the Cactus Leather London website project and provided the work listed above.

The client also confirms that the work was delivered or substantially completed according to the agreed website design and setup scope. The client understands that any additional work outside the original scope may require a separate agreement.
