Full Stack Developer | Oujda, Morocco | +212 654495827 | yahyaegz@gmail.com | <https://www.yahyaelgzouli.engineer/> | github.com/yahyaegz | [linkedin.com/in/yahya-el-gzouli-99536b331](https://www.linkedin.com/in/yahya-el-gzouli-99536b331)

PROFILE

Full Stack Developer and computer engineering student specialized in building modern, scalable web applications. Experienced in designing REST APIs, developing high-performance frontend interfaces, and building backend architectures with Node.js and .NET. Passionate about SaaS solutions, Clean Architecture, and efficient full-stack systems.

TECHNICAL SKILLS

Languages	JavaScript, TypeScript, Python, Java, SQL, C, C++, C#
Frontend	React, Next.js, Vite, HTML5, CSS3, Tailwind CSS, Framer Motion
Backend	Node.js, Express.js, .NET, Django, REST API, JWT Authentication
Databases	PostgreSQL, MySQL, MongoDB
Tools & DevOps	Git, GitHub, Docker, Linux, Postman, VS Code
Cloud & Deployment	Vercel, Render, AWS, Azure

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern - Codveda Technologies (Remote) | 2026

- Developed full-stack applications with Node.js, Express, and JavaScript.
- Designed and implemented REST APIs for application data management.
- Integrated a PostgreSQL database for persistent data storage.
- Collaborated with Git in a professional development environment.

PROJECTS

Cliniko - Medical Management SaaS Platform (Vite, JavaScript, .NET, Clean Architecture)

- Designed a medical SaaS platform for managing patients and medical interactions.
- Developed a high-performance frontend with Vite and JavaScript.
- Implemented a .NET backend structured according to the Clean Architecture model.
- Organized the system into Domain, Application, Infrastructure, and API layers.
- Designed backend APIs for frontend-backend communication.

Task Manager REST API (Node.js, Express.js, PostgreSQL, JavaScript)

- Developed a full-stack task management application with complete CRUD functionality.
- Created a REST API with Express.js to create, update, and delete tasks.
- Integrated a PostgreSQL database for data storage.
- Built a simple HTML, CSS, and JavaScript interface connected to the API.
- Project completed as part of the Full Stack internship at Codveda Technologies.

AirBabouche - E-commerce Platform (React, Node.js, SQL)

- Designed an e-commerce system with catalog, cart, orders, and payment features.
- Developed backend APIs for managing products, orders, and customer data.
- Implemented product customization features and optimized the user experience.

Full Stack Developer Portfolio (Vite, Tailwind CSS, .NET)

- Designed a modern portfolio to showcase projects, skills, and experience.
- Developed a fast frontend with Vite and Tailwind CSS.
- Built a .NET backend using Clean Architecture.
- Added a contact system for recruiters.

Women's Day Tribute - Animated React Project (React, Tailwind CSS, Framer Motion)

- Created an interactive page celebrating International Women's Day.
- Used modern animations: particles, confetti, and typewriter effect.
- Highlighted inspiring women such as Marie Curie, Malala Yousafzai, and Fatima Al-Fihri.
- Delivered an immersive user experience with React and CSS animations.

EDUCATION

Computer Engineering - EHEI Oujda | 2023 - Present
Preparatory Classes - Omar Ibn Abdelaziz, Oujda | 2020 - 2022
Baccalaureate in Electrical Science and Technology | 2020

CERTIFICATIONS

Meta Full Stack Developer Professional Certificate - Coursera
HackerRank Certifications: SQL Advanced, REST API, Node.js, React Developer
